

Welcome to the 2018 Interlakes Happenings!

Levick Enterprises: Longtime family-run business

Levick Enterprises (Gravel & Redimix) is celebrating its 50th anniversary this year, having opened in 1968. The company was originated by lifetime resident, Walter Levick, who is sadly missed after passing away early this year. It has always been a family business which, since 2007, has been solely operated by Walter's son and daughter-in-law, David & Cheryl Levick.

The company's office is at Interlakes Service Centre and their

pit is on East Sheridan Lake Road. David's mother, Joanne, still lives on a beautiful little lake on the other side of the pit.

In addition to supplying gravel, concrete and other such construction materials, Levick Enterprises provides land-clearing and site preparation, as well as driveway- and road-building services.

Strong community supporters, David and Cheryl are both directors of Bridge Lake Community Club,

and David is a member of the Cariboo Regional District's Area L Advisory Planning Committee.

Serving the Interlakes Area since 1968
